

WILLIAM PEARSON
A division of the Coventry Group

Creolin eco

SINCE 1889

THE NEW BLACK DISINFECTANT

Safe & Responsible Hygiene
For Over 120 years of quality and experience
Use Creolin since 1889

In 1889, William Pearson Ltd created Creolin™, the original black disinfectant. William Pearson Ltd. Quickly became one of the biggest chemical companies in the world. Constructing factories across the whole of Europe, including Paris, Hamburg, Genoa and Brussels. All tailored to deliver fine quality chemicals to the general populous.

Now the new generation has been formulated. Able to demonstrate its unquestionable power to disinfect even the dirtiest most unclean surfaces. Creolin Eco is only one of the fantastic products now produced by the Coventry Group at our factory in the heart of England. So while the bottle looks old fashioned the company is not.

William Pearson now presents Creolin Eco. The new generation of black disinfectants. Cleans paths, patios and driveways. Disinfects pet housing, unblocks drains. Cleans pots, greenhouses and much much more.

KILLS
99.9%
OF ALL GERMS
