Mirius Biosecurity Solutions

Speciality Cleaners and Disinfectants for Enhanced Biosecurity in Livestock and Poultry Production

Proudly developed and manufactured in the UK, the Mirius range of high-performance cleaners, disinfectants, and water treatment solutions plays a key role in farm biosecurity protocols. Formulated to combat harmful disease challenges, our products empower producers worldwide to safeguard animal health, boost productivity, and achieve maximum yield with confidence.

Manufactured in the UK by Mirius (Coventry Chemicals Ltd.), Woodhams Road, Siskin Drive, Coventry, CV3 4FX. Customer Care Line: **+44(0)2476 639 739** www.mirius.com

Use disinfectants safely. Always read the label and product information before use.

MADE IN BRITAIN

Detergents

OmniClean™

- A fast acting, powerful alkaline cleaner
- Formulated to apply as a wet foam before disinfection
- Low rinse formula
- Available in 5L, 25L, and 200L

OmniGel™

- Heavy duty gel cleaner
- Excellent cling for prolonged contact time
- Effective in hard and soft water
- Powerful action on heavy organic deposits
- Available in 5L, 25L, and 200L

OmniWash™

- High foaming detergent and degreaser
- Economic in use
- Effective in hot and cold water
- Works in hard or soft water
- Suitable for use on most surfaces
- Available in 5L, 25L, and 200L

Disinfectants

Virucidal WP™

- A fast acting, broad spectrum disinfectant containing a stabilised blend of peroxygen compounds, surfactant and organic acid
- Effective against viruses, bacteria and yeasts
- Suitable for all areas of animal production
- Effective in hard and soft water
- Biodegradable
- DEFRA approved (FMD, SVD, DoP, and GO)

Omnicide™

- Broad spectrum disinfectant designed to maximise the synergistic action of glutaraldehyde and quaternary ammonium compounds
- Proven effective against bacteria, viruses, fungi and moulds
- Proven residual activity
- Non-corrosive to most surfaces at recommended dilutions
- Proven effective in the presence of organic matter
- DEFRA approved (FMD, SVD, DoP, and GO)

OmniCox™

- An aid in the prevention of coccidiosis and cryptosporidiosis
- Proven residual activity
- Remains active in the presence of organic matter
- Effective against viruses, bacteria, fungi and moulds
- DEFRA approved (FMD, SVD, DoP, and GO)

OmniChlor Plus™

- Powerful effervescent chlorine tablets for livestock and poultry drinking water
- Proven effective against viruses, bacteria, fungi and mycobacteria
- Contains troclosene sodium/NaDCC, delivering free chlorine as hypochlorous acid, adipic acid, as a pH buffer and sodium carbonate
- DEFRA approved (FMD, SVD, DoP, TBO, and GO)
